IMPROVEMENTS / CHANGES

FUNCTIONAL IMPROVEMENTS / CHANGES

- **BATTERY CHECK ACTION:** Easily check battery level with one touch of the remote, moving the shade to indicate battery percentage.
- **ELEGANT SOFT STOP:** The smooth action slows the motor down upon shade closure, quietly coming to an elegant stop.
- **UPDATED HOUSING AND SPECIFICATION:** A new plastic housing was implemented to reduce noise and vibration on the motor and make the tilt motor even quieter. In conjunction with that, a new rated torque (0.6Nm) has been adjusted to provide smooth control of the blinds.
