

AUTOMATE®

Pulse PRO

Reliable long-range performance

Compatible with

matter

Pulse PRO Hub

The heart of your smart shades

Unlock the hidden potential of your home and experience the convenience of smarter shades with the Automate Pulse PRO.

Installed on your smart device, the Automate Shades App centralises control of motorised shades at the tip of your finger, or the sound of your voice.

With advanced features including timer automation, sunrise/sunset functions, and Matter compatibility, your motors seamlessly adapt to your lifestyle. Whether at home or away, enjoy effortless control and enhanced connectivity.

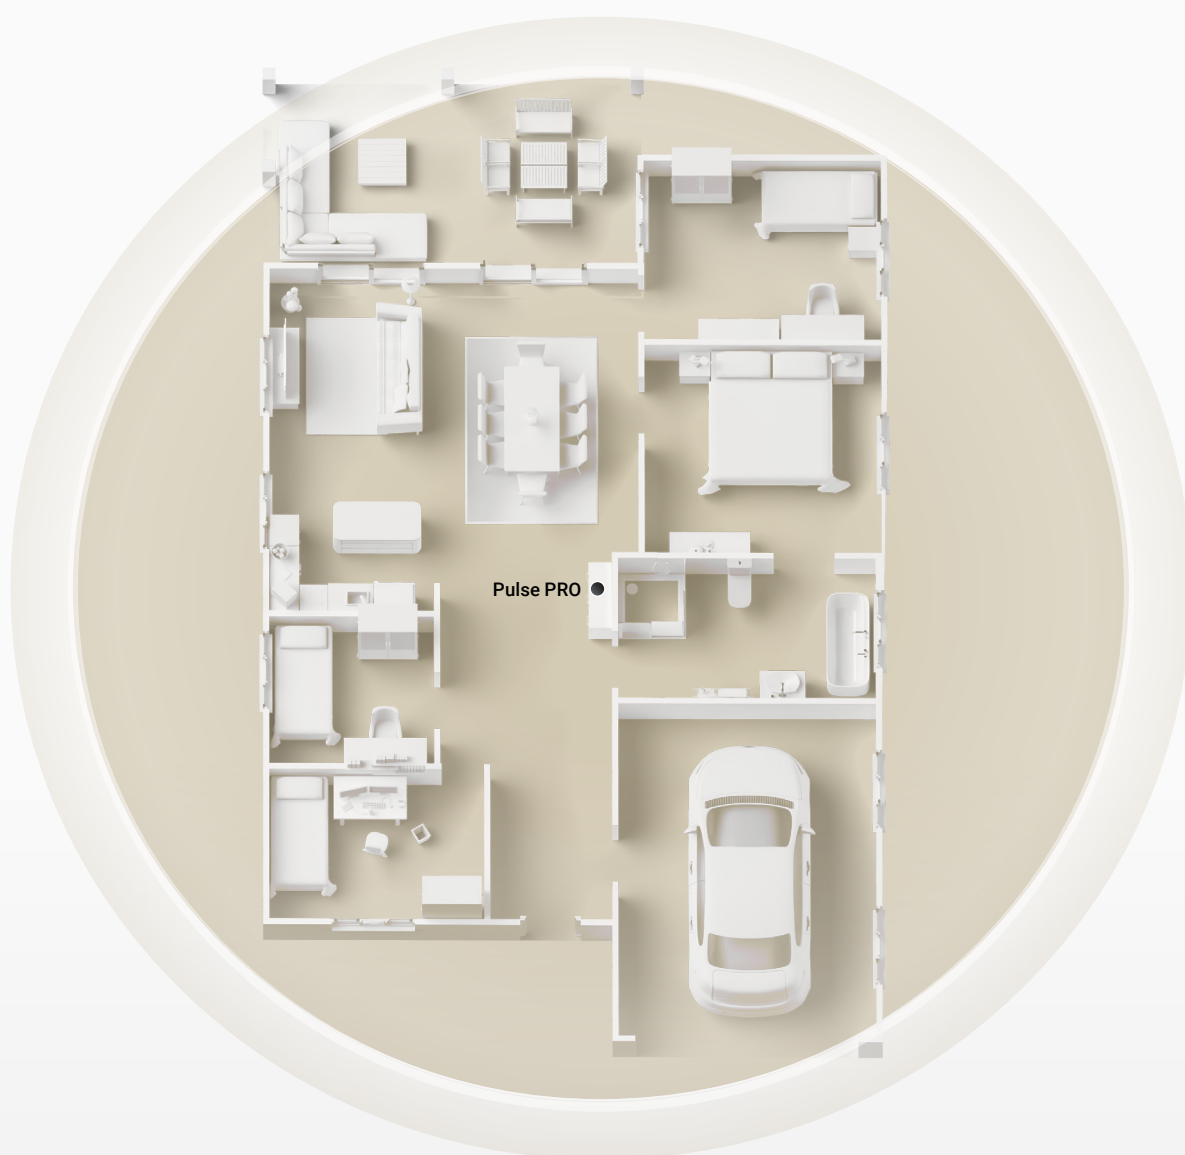

ARC

Automate Radio Communication

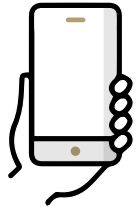

Powered by our proprietary communication technology, ARC enables an intuitive bi-directional signal, engineered to deliver a more reliable connection and better communication between your motor and control device.

Reliable and secure coverage with Pulse PRO

Pulse PRO offers complete, reliable control of your home's motorised shades with a powerful signal that reaches up to 30 meters.

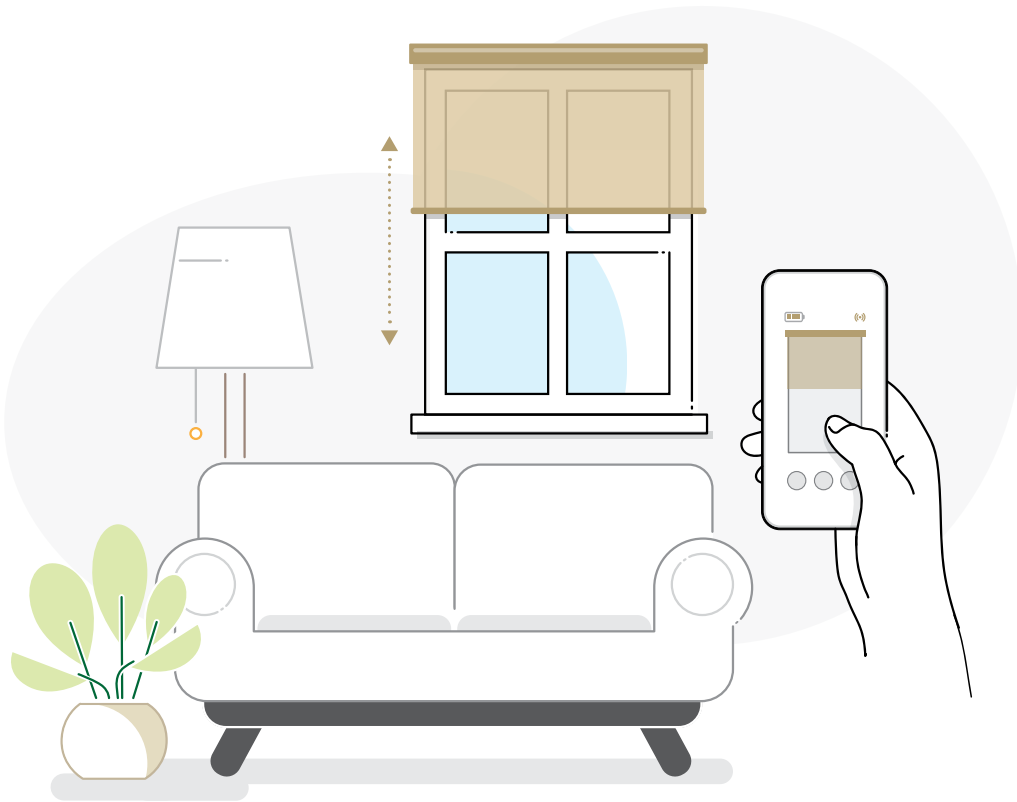

A single Pulse PRO will cover an average-sized, 35 sq (325 m²) home, even across multiple stories, without the need for additional hubs. This enhanced performance ensures seamless, uninterrupted shade control across your entire home.

Pulse PRO Control Options

Automate Shades App

Simple and sophisticated smart phone control

Take charge of your shades with the Automate Shade App. Personalise your daily routines, organise and group shades, and automate with custom Scenes and Timers.

Simply set your preferred daily routines and watch your shades do the rest.

Sunrise/ Sunset Automation

Automate shades adjust to the movement of the sun with a built-in sunrise/sunset feature, ensuring optimal, automatic sunlight and privacy control.

Voice Control

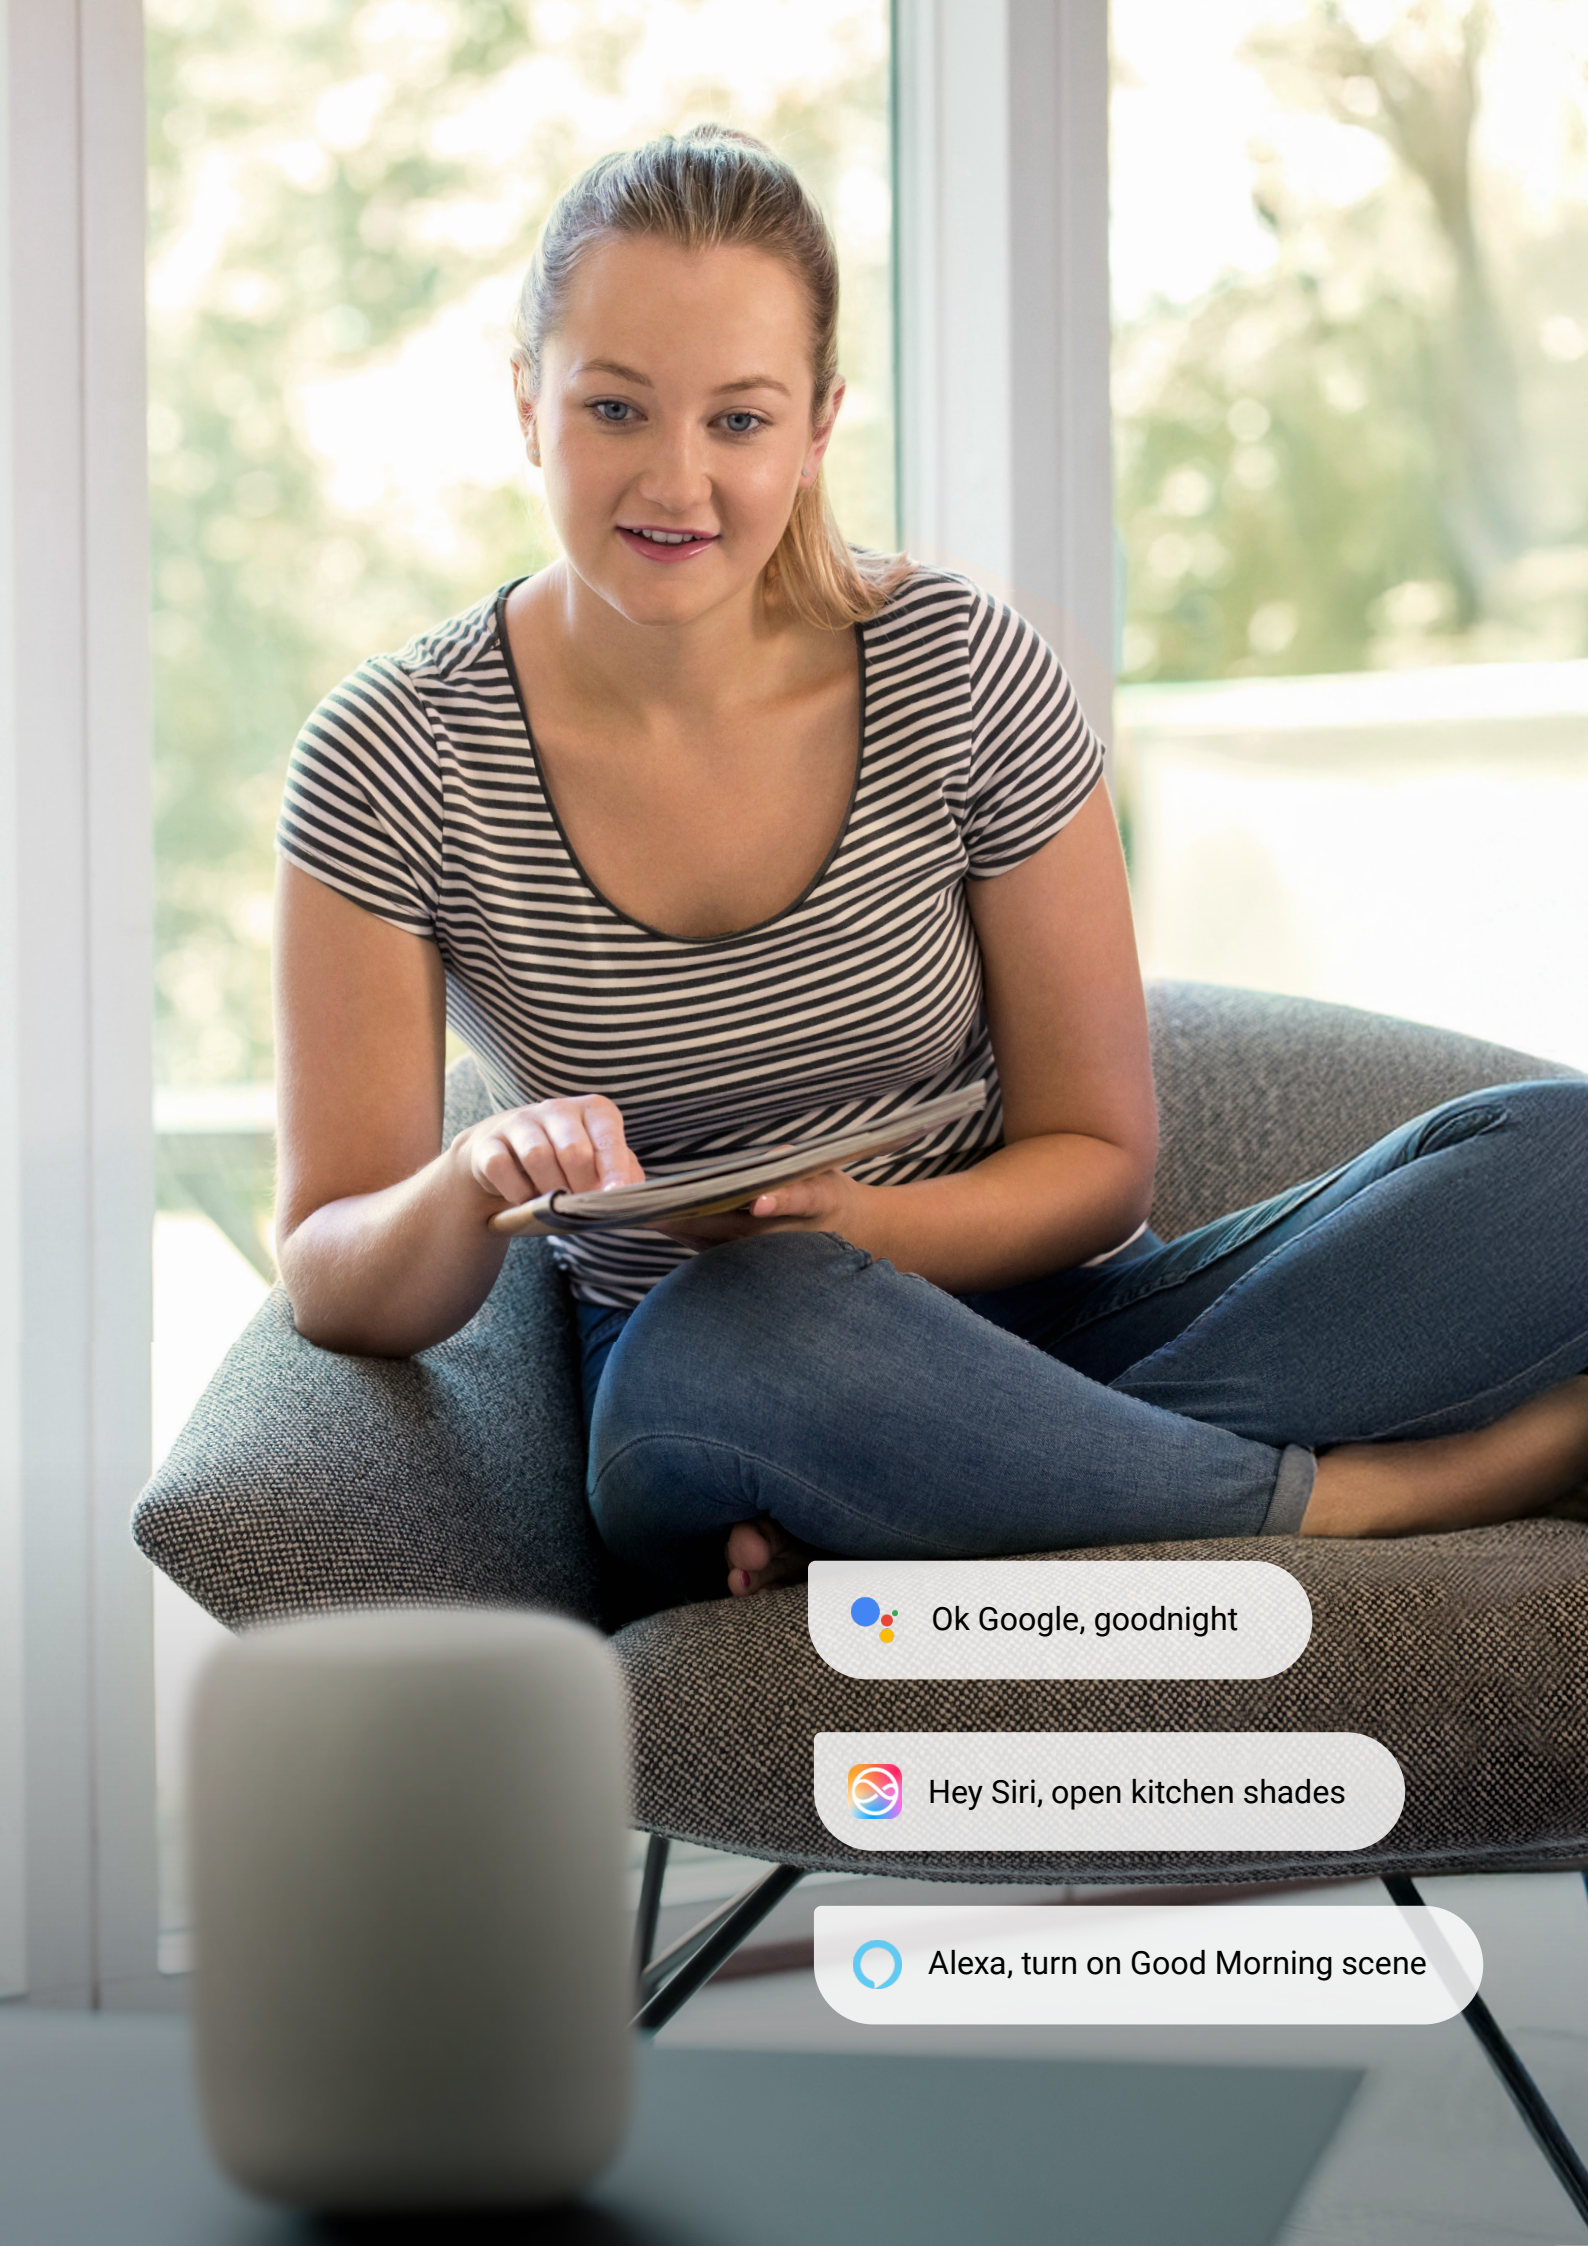

Shades that **listen**

Control your shades with just your voice. When paired with Pulse PRO, your shades seamlessly integrate with Matter compatible devices such as Siri, Google Assistant, and Alexa.

Raise, lower, or group shades, activate scenes, or set shades to your perfect height – all with the power of your voice. Matter integration ensures reliable, future-proof connectivity across devices.

Elevate your space with simultaneous group control.

Experience grouped shades rising and lowering together – true synchronised automation, ideal for open plan living areas.

Ok Google, goodnight

Hey Siri, open kitchen shades

Alexa, turn on Good Morning scene

Smart Home Integration

Your smart devices working together

Transform your home into a truly connected ecosystem. Integrate your Automate shades with home automation systems, coordinating with lights, security, thermostats, and entertainment devices. With WiFi connectivity and compatibility with IFTTT and SmartThings, effortlessly control your entire smart home — all from one place.

Lake House

All doors are locked. 7 thermostats active.
Some devices are offline.
Some devices have low battery.
