FEATURES & BENEFITS

PRODUCTION / INSTALLATION FEATURES

Flush or angled mounting to maximize solar exposure based on wall orientation or home/shade configuration.

FUNCTIONAL BENEFITS

- Renewable Power** – Environmentally friendly power maintains motor energy without the need of regularly charging.
- Water-Proof Design** - Engineered for reliable performance in diverse climates, with waterproof cable connections for added protection against the elements.
- Trickle charging system** maintains battery health and prevents overcharging.
- Integrated Splitter Cable** - Built-in Y-cable enables simultaneous connection to both the motor and optional USB-C charging extension or adapter, allowing solar charging while keeping a manual recharge option accessible.

AESTHETIC FEATURES

- Slim & Discreet** Compact design integrates cleanly and blends in with outdoor structures.
