

Alexa Quick Start Guide

GETTING STARTED:

Before connecting Alexa to your Automate Pulse 2, please ensure the Automate Pulse 2 and Shades are working.

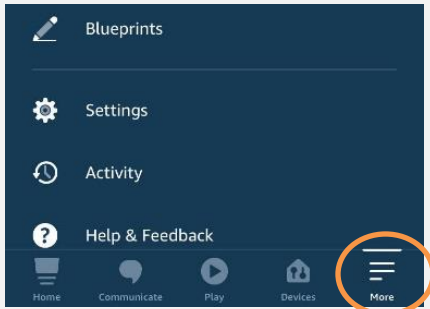

Go to your Automate Pulse 2 and Add the Hub follow the steps suggested: Proceed to pair Motorized shades through the Pulse 2 App.

To control your Shades with your voice assistant, you will need the following:

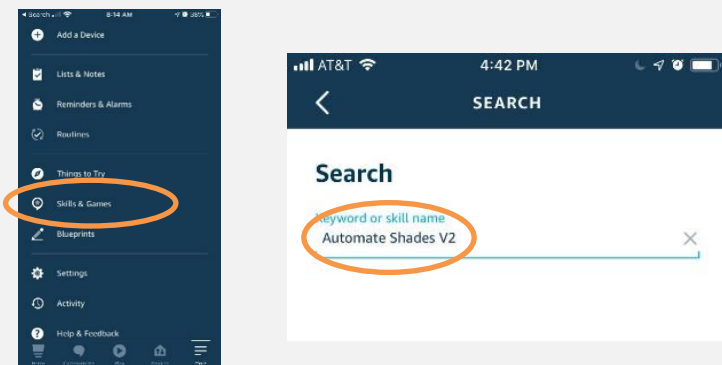

1. Automate Pulse 2 already setup and working.
2. Automate Pulse 2 App and account.
3. Working Shades with your Automate Pulse 2 App.
4. Alexa App and account.

1. Open the Alexa App on your phone and select the **main menu** on the bottom right corner of the screen.

Note: Alexa App version: 2.2358771.0

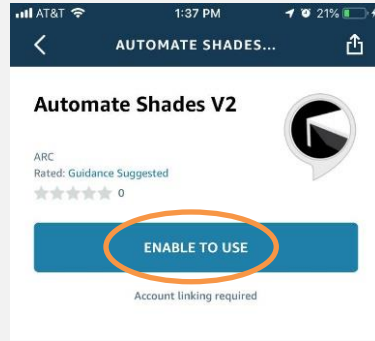

2. Search **“Automate Shades V2”** in the Skill search bar at the top of the screen.

SUPPORT RESOURCES: For further assistance, contact your retailer, or visit our website at www.automateshades.com

3. **“Automate Shades V2”** skill will appear in the results menu. Select it.

Enter the email and password associated with your Automate Pulse 2 App you would like to link.

4. You will now be prompted to discover your shades. Click **“Discover Devices”**.

Click in “Devices” and “Scenes” and all the preconfigured scenes configured in your Automate Pulse 2 App will now appear here

5. Test the communication Simply say:

“Alexa, Open Bottom-Up Roller Shade.

“Alexa, Close “Roman” Shade”.

“Alexa, turn on Good Morning”.

“Alexa close the Master Bedroom a little bit”

“Alexa, set Bedroom Shade to 22%”.

TIPS:

Alexa responds to names created in the Automate Pulse 2 App. Consider using “one” when numbering shades instead of “1”. Avoid using all special characters like % and numbers.

If you have changed the name of your shade or scene in your Pulse 2 App, please ensure you force close the Automate Pulse 2 App, then reopen the Pulse 2 App. Only then can you rediscover the devices and scenes in your Alexa App.
