

HomeKit Quick Start Guide

GETTING STARTED:

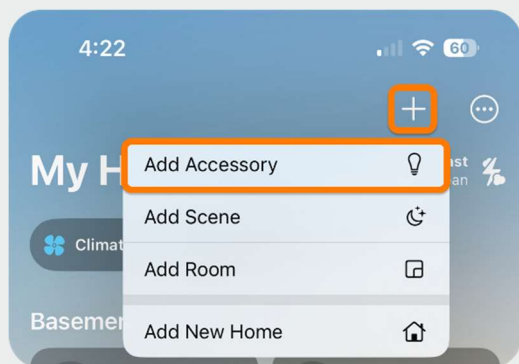

Before connecting to HomeKit, please ensure your Smart Home Collection PRO Hub and motorized shades have been setup and are working from within the Smart Home Collection App.

You will also need a Matter-compatible, HomeKit hub/smart speaker already linked to your Home account.

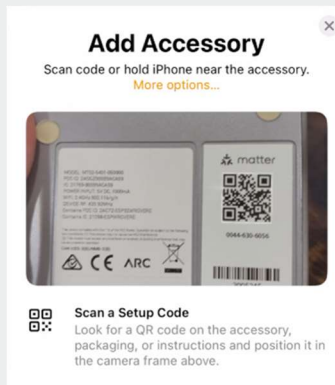

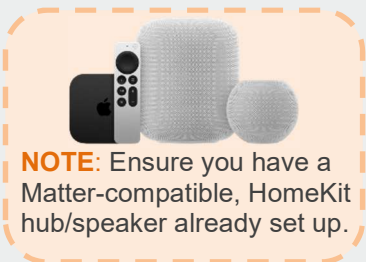

To control shades with Home, you will need the following:

1. Smart Home Collection PRO Hub that has been set up.
2. Working shades within the Smart Home Collection App.
3. Home app and Apple ID account.
4. A Matter-compatible hub/smart speaker set up.

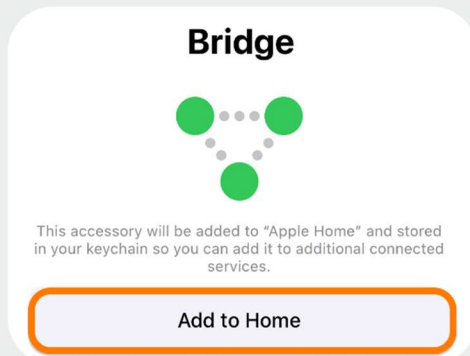

1. In the **Home** app, select **+** and then **Add Accessory**.

2. Scan the **Matter** QR code found on the bottom of the **Smart Home Collection PRO Hub**.

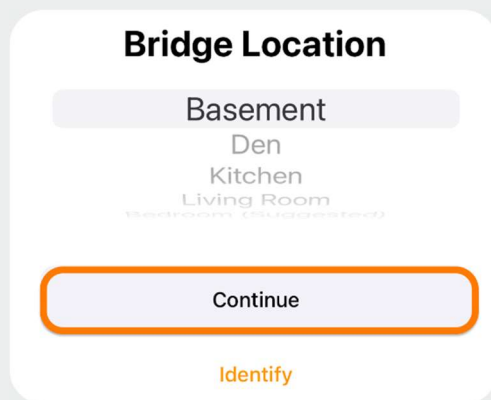

3. Select the option to **Add to Home**.

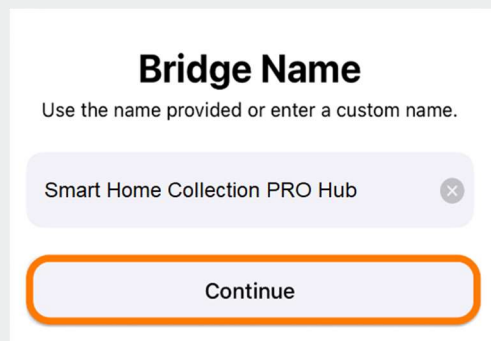

Support Resources: For further assistance, contact your retailer, or visit our website at www.budgetblinds.com

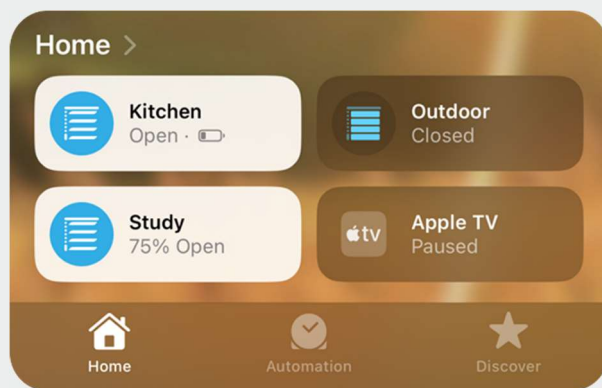

4. Choose a location for your Smart Home Collection PRO Hub and then select **Continue**.

5. Name your Hub and then select **Continue**.

6. You'll see the shades on the **Home** page; you can control them from here.

7. Test voice commands. Example commands:

- "Siri, **open** kitchen shade"
- "Siri, **close** den blind"
- "Siri, **activate** bedtime automation"
- "Siri, **raise** the blackout shade"
- "Siri, **set** bedroom shade to **22%**"

HomeKit Automations:

Please note that **Rooms**, **Scenes**, and **Timers** set in the **Smart Home Collection** App do not carry over to HomeKit. **Automations** can be created in HomeKit to achieve similar functionality. For more details, visit support.apple.com and search for **Automations**.
