SMART HOME COLLECTION
by BUDGET BLINDS®

Pulse PRO

The Pulse PRO connects to your home network, delivering a personalized shading experience with advanced app control, voice commands, and seamless integration with leading home automation systems. Enjoy precise, bidirectional shade communication, customizable schedules, and reliable, long-range performance all from a single hub.

Voice Control
Intuitively control SHC shades with simple voice commands through Google Assistant, Amazon Alexa or Apple HomeKit.

SHC App Control
Control shades remotely, whether home or away. The SHC app is available for all Android phones, tablets and iOS devices, including Apple watches & iPads.

Sunrise & Sunset Detection
Utilizing time zone and location, the Pulse PRO can automatically raise or lower shades according to the position of the sun.

Live Feedback
ARC enables live communication between the hub and motors. Check motor battery levels and shade positions through the app or smart assistants

Distinct Design
Designed in California, the Pulse PRO embraces elements from modern architecture to ensure it complements the interior of any home.

Personalized Experience
Create custom rooms, scenes, routines and timers to enable efficient or automatic shade control based on time, weather or schedule.

High-Speed Connection
Built-in Wi-Fi or the option of Ethernet connection, ensures the Pulse PRO can connect to any home network and provide swift, wireless control of SHC shades.

Simultaneous Shade Control
Synchronize shade groups for smooth, coordinated open/close movements and a refined user experience.

Simple Provisioning Process
Easily connect to the home's router with a quick, 3-step installation for seamless setup.

Long-Range Performance
Control up to 30 shades with a single hub, offering reliable operation at distances up to 98 feet.

Compatible with

**matter**

7 YEAR WARRANTY

ARC ARC™ (Automate Radio Communication) is Rollease Acmeda's proprietary technology utilizing 433MHz radio communication with bi-directional feedback that brings Automate motorized shading systems together.

Product Specifications

Input Voltage	5V	**Apple IOS Version**	Needs to be 13 or greater
Input Power	1000mA	**Android Version**	Needs to be 6.0 or greater
Wi-Fi network	2.4Ghz only	**Devices**	Compatible with Smart Phones, Tablets and Smart Watches
Shade Control Frequency	433.92 MHz	**Locations per Account**	5
Range	3,000 sq ft	**Devices per Hub**	30
Protection Class	IP20	**Hubs per Location**	5
Operation Temperature	32°F to 140°F (0°C to 60°C)	**Rooms per Location**	20
Connection	Ethernet and Wi-Fi	**Scenes per Location**	20
IOT Integration	Apple HomeKit, Amazon Alexa, Google Assistant, SmartThings	**Timers per Location**	20
Third Party Device Integration	Control4, ELAN, HomeSeer, Crestron AMX, Savant, RTI	**USB Cable Length**	31 Inches / 80cm
Matter Compatibility	Yes - Via Wifi / Ethernet	**Ethernet Cable**	39 Inches / 100cm
