AUTOMATE®

12V DC RF Q6.0

Simplified wiring. Efficient installation. Maintenance free.
This low voltage motor is perfect for small to large Roller shade applications.

Bidirectional Communication

Automate Radio Communication utilizes two-way communication to provide up-to-date feedback on battery levels and shade positioning via the Automate Pulse 2 app.

Simplified Setup

Whether using a remote control or app for shade setup, Automate programming instructions are streamlined to have your shades moving as quickly as possible.

Precise Limit Adjustment

Incremental steps during limit setting allows for precise positioning of the shade.

Elegant Soft Stop

Slows the motor down for a smooth stop to prevent damage to the shade, and preserves the life of the battery.

Adjustable Speed Control

Three shade speed settings to suit your needs – faster for larger shades, slower for smaller. Features quiet operation when set to the lowest speed setting.

Favorite Positioning

Add a programmable shade position in addition to the upper and lower limits that can be defined as your "favorite".

Battery Check Action

When paired with Push5 remote, motor will move shade to indicate battery percentage.

Quiet Opperation

Superior acoustic performance makes this our quietest motor range yet.
