AUTOMATE™

FCC ID 2AGGZ003B9ACA5C  
IC 21769-003B9ACA5C

CAN ICES-3 (B)/NMB-3(B)

Do not dispose of in the general waste. Please recycle batteries and damaged electrical products appropriately.

## Specifications

|                     |                               |
|---------------------|-------------------------------|
| Model Number        | MT01-3101-069004              |
| Description         | TDBU Center Mount 12VDC Motor |
| Supply Voltage      | 12V DC                        |
| Rate Power          | 16W, 1.35A                    |
| Max. Operating Time | 12min                         |
| Appliance Class     | III                           |
| Rated Torque        | 2X 0.6Nm                      |
| Rated Speed         | 34 RPM                        |
| Shade Control Freq. | 433.92 MHz                    |
| Digital Device Type | Class B                       |
| Modulation Type     | FSK                           |
| IP Rating           | IP20                          |
| Battery Size/Type   | External Battery Pack         |
| Operation Temp.     | 32°F to 140°F (0°C to 60°C)   |

Rollelease Acmeda declares this equipment complies with the essential requirements and other relevant provisions of the following directives and standards:

|                  |   |
|------------------|---|
| FCC Part 15      | FCC 47 CFR Subpart C -Radio Frequency Devices / Intentional Radiators                               |
| RSS-Gen Issue 5  | General Requirements and Information for the cert. of radio apparatus                               |
| RSS-210 Issue 11 | License-Exempt Radio Apparatus: Category I Equipment  |
| FCC Part 15      | FCC 47 CFR Subpart B -Radio Frequency Devices / Un-Intentional Radiators                            |
| ICES-003 Issue 7 | Information Technology Equipment (Including Digital Apparatus) – Limits and Methods of Measurement. |
| ANSI/CAN/UL325   | Safety of Door, Drapery, Gate, Louver, and Window Operators and Systems                             |

## FCC / ISED Statements

This device complies with Part 15 of the FCC. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

## Caution

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

## Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
